

# Flying Banner Sails

Colorful Advertising Media for Indoor & Outdoor Applications

METROPOLITAN GRAPHICS

## Overview

Metropolitan Graphics' Print methods fuse brilliant color with the fabric to create excellent color fastness.

## Hardware:

Precision aluminum and fiberglass hardware for indoor/outdoor use. Includes integrated bearing to allow Banner to move easily with the wind and add less stress to the poles.

## Printing:

Premium exterior grade fabric with digital dye-sub or chemical dye print for brilliant color and great color fastness

Single sided reverse or double-sided prints.

100% Coverage with printed pole sleeve.

## Setup:

Simple assembly by one person in 3 minutes. No tools necessary!

## Included:

Pole Sets, Printed Banner, Storage/Carry Case

## Bases:

A variety of bases are offered for every installation.

## Services

Graphic Design  
Volume Printing  
Drop/Bulk Shipping

Metropolitan Graphic's Flying Banner Sails offer unmatched quality hardware, fabrics and print methods plus a variety of sizes and styles to meet any advertising project and budget requirement.

Installed in-ground or on flat surfaces, our Flying Banner Sails are manufactured with high quality hardware and special bearings to help your banner fly in the wind more easily and resist wear.

Plus, our ultra high quality, high-resolution printed single sided or two-sided flags are perfect for durable indoor/outdoor application.
